OBJECTIVE

A fresh graduate seeking employment and experience working on real–world projects. I'm curious about new technology and want to learn more. In addition, I'd want to apply my knowledge and talents to the job in the organization, as well as obtain more experience and be challenged on duties. I am enthusiastic about providing value to clients and addressing difficult challenges by implementing advanced solutions in a smooth manner to aid in the company's organization. At the same time, I'm on the lookout for a fresh and challenging work setting where I can improve my communication and client contact abilities.

LANGUAGE

- Malay (Native)
- English (Professional Working Proficiency)
